Pattern Perfect Instructions

Parts List  pg. 2

Assembly Instructions
  Step1  Fastening Templates to Table  pg. 3
  Step2  Fastening the Stylus Attachment  pg. 4
  Step3  Attaching the Metal Stylus  pg. 5
Step 1: Fastening Templates to Table

Parts Needed:
- 1 - Crib Size Template (largest)
- 1* - Queen Size Template (2nd largest)
- 1** - King Size Template (smallest)
- 2 or 4* or 6** - 1/4x35mm Connector Bolt
- 2 or 4* or 6** - 1/4 Flat Washer
- 2 or 4* or 6** - 1/4 Plastic Knob

*If frame is assembled in queen
**If frame is assembled in king (GMQ-Pro only)

• Fasten the pattern template of your choice to the table top by placing one 1/4x35mm connector bolt through the holes on each side of the template, and then through the center slot of the table.

*NOTE: You may vary the position of your template relative to the metal stylus by placing the bolt through the top or bottom slot of the table, rather than the center slot.

• Place a 1/4” flat washer and a 1/4” plastic knob. Hand tighten each knob.
Step 2  Fastening the Stylus Attachment
Parts Needed: 1 - Stylus Attachment w/ Pre-installed bolts
              2 - 1/4 Jam Nut

• Turn upper carriage upside down.

• Fasten the Stylus Attachment by pushing the two pre-installed connector bolts through the two holes of the track support, as pictured.

NOTE: You may fasten the Stylus Attachment to either side of the carriage.

• Thread a jam nut onto the end of each bolt and tighten completely.
Step 3: Attaching the Metal Stylus

Parts Needed: 1 - Metal Stylus
1 - 1/4” x 2” Eye Bolt
1 - 1 1/4” Fender Washer
1 - 1/4” Plastic Knob

• Place the eye of the eye bolt through the side opening of the Stylus Attachment.

• Lower the Metal Stylus through the eye of the eye bolt so that the thicker portion of the stylus is in the eye.

• Place an 1-1/4” fender washer and plastic knob onto the threaded end of the eye bolt.

• To secure the stylus in place, tighten the knob all the way. To adjust the stylus front or back, or to lower or raise it from the groove, loosen the knob.
